Sales Pipeline Assistant

An AI sales assistant I built and tested on a live **HubSpot** account. A sales team asks Claude in plain English, and an **MCP server** answers from pipeline data and keeps HubSpot up to date.

6
tools in the MCP server

~2 s
per HubSpot lookup

11 s to 2 s
account lookup after tuning

Exact
forecasts match the HubSpot deal board

Amanpreet Kaur, freelance AI integration developer

Ask a question. See which deals need attention.

The deals and figures on this slide are dummy data for illustration, not actual client data.

Sales rep

Which deals need attention this week?

Claude

These three first:

13 of 36 open deals need attention, worth $417,000.

Meridian Hotels, $72,000
No activity for 15 days, missed its close date

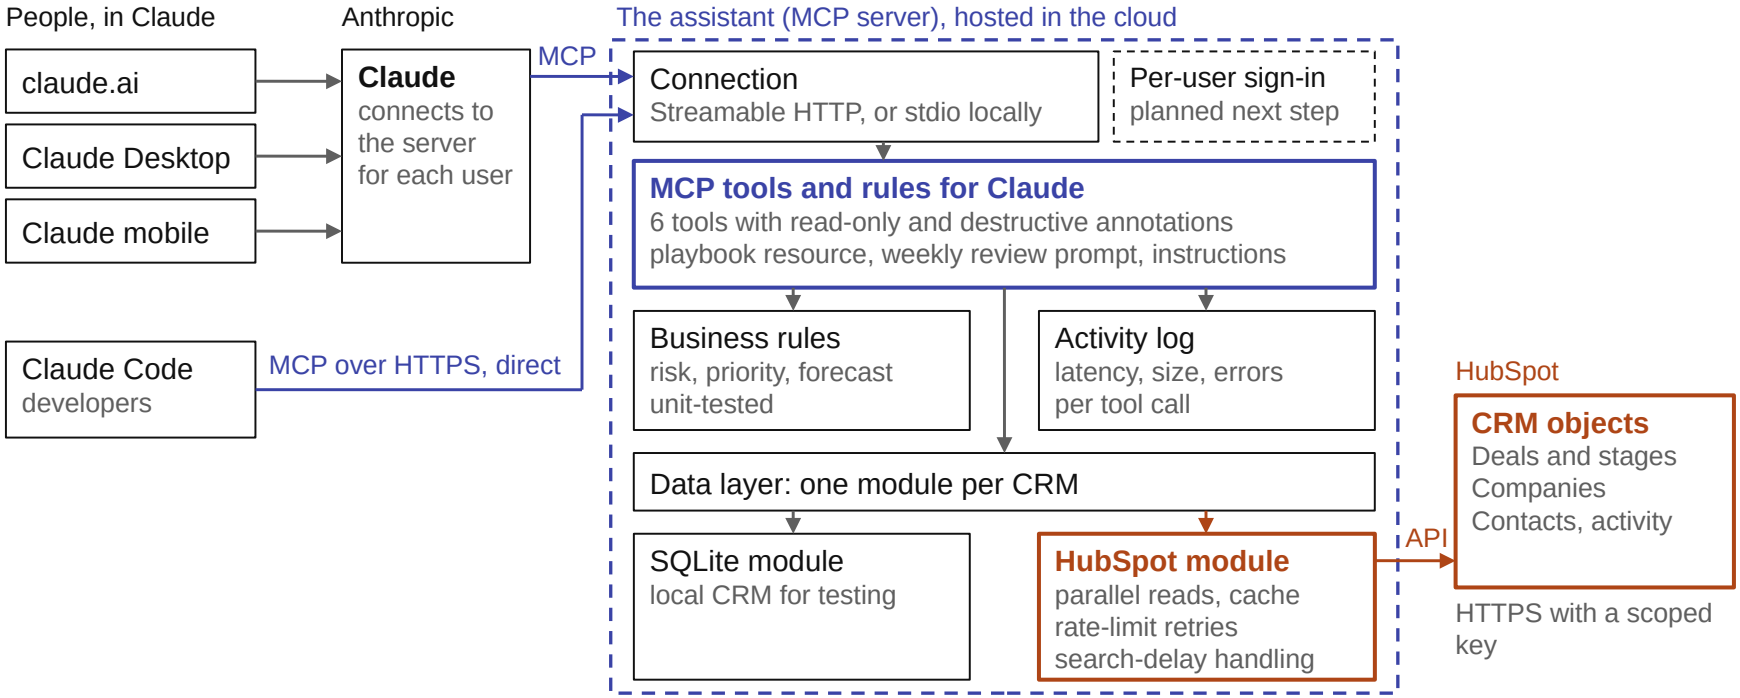

Acme Logistics, $48,000
No activity for 18 days, contract overdue

Northwind Freight, $30,000
No activity for 33 days

Deal Name	Deal → Company (Primary)	Last activity date (demo) ↑
Data migration project	Northwind Freight	Sep 29, 2026
Fleet tracking rollout	Acme Logistics	Oct 14, 2026
Renewal + upsell	Meridian Hotels	Oct 17, 2026

The same three deals in HubSpot, sorted by last activity

How the system is built

What this demonstrates

MCP server design, CRM integration, safe AI-driven updates with human approval, and automated testing.
